NFC NORTH FLORIDA COLLEGE

Foundation, Inc.

September 25, 2025

Dear Alumni & Friends of the Foundation,

We have launched into a successful new academic year at North Florida College, and I would like to take a moment to express my sincere gratitude for your steadfast support of the North Florida College Foundation. Your generosity continues to change lives and open doors of opportunity. Because of supporters like you, we were able to award more than \$400,000 in scholarships this year, providing essential financial assistance to 430 students across our six-county service area and beyond.

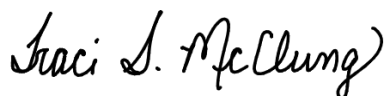

The past year has been one of growth, innovation, and renewed momentum for NFC. Thanks to the dedication of our faculty, staff, and partners, we proudly launched the Bachelor of Science in Organizational Management program, an important milestone in expanding access to higher education in our region. This new degree equips students with the leadership, business, and management skills needed to thrive in today's workforce while allowing them to stay close to home.

We also celebrated the first graduating classes of our HVAC and Welding programs, two vital workforce training initiatives that are helping meet critical regional needs in skilled trades. These programs are not only transforming individual futures but also strengthening the local economy by preparing job-ready graduates to fill in-demand positions in our communities.

Through every new program, scholarship awarded, and student success story, your support remains at the heart of our mission. Your belief in the power of education ensures that students, many of whom are the first in their families to attend college, have the resources and encouragement they need to achieve their dreams.

As we look to the year ahead, we are inspired by the impact we have made together and excited about the opportunities still to come. Thank you for your unwavering generosity and support. Together, we are shaping a stronger, more prosperous North Florida.

With deepest appreciation,

Traci S. McClung

Director of Resource Development
