## **POLICY:**

The administration and District Board of Trustees of North Florida College are committed to the principal of academic freedom of instructors and students as practiced in the diligent inquiry into truth, scholarly criticism, and examination of ideas. Essential to these pursuits is the assurance of an atmosphere of freedom. Academic freedom carries with it an accompanying academic responsibility, requiring instructors and students to exercise competence, integrity, scholarly discretion, conscientious regard for the rights of others, and acknowledgement of citizenship within a learned profession and an educational institution. The College shall support academic freedom as a fundamental right of instructors and students.

Faculty members are entitled to full and complete freedom within the framework of pertinent statutes, rules, and procedures set forth in the NFC Procedures Manual. Specific entitlements to faculty include freedom:

- 1) In the classroom presentation and discussion of course subjects and related matters.
- 2) In research and publication of results so long as such research does not interfere with performance of regular duties.
- 3) In the expression of opinions as citizens in venues outside the classroom, free from censorship and/or discipline by administrative officials and the District Board of Trustees. When speaking as citizens, instructors shall clearly indicate their status as citizens rather than institutional spokespersons.
- 4) In the development and implementation of the curriculum and selection of course support materials.
- 5) To participate in formulation of rules relating to academic matters.
- 6) To redress alleged abridgement of academic freedom.

Students are encouraged to engage in inquiry leading to truth. Such an inquiry frequently requires an independent effort in sustained critical thinking. The principles of academic freedom outlined below are essential to student intellectual pursuits.

- 1) Students shall be free to express exception to views and materials presented in any course and to reserve judgment concerning opinions espoused in such courses. However, students remain responsible for mastery of course content.
- 2) Students shall be protected from prejudiced and unfair academic evaluation. Procedures to ensure such protection are described in the Students Handbook. Students are responsible for meeting or exceeding standards of academic performance in order to receive passing grades.
- 3) Information about student views, beliefs, and political associations acquired by faculty members during a course shall be deemed confidential. Improper disclosure of such information is considered to be serious.
- 4) Students and student organizations are encouraged to engage in inquiry in areas of interest. Opinions concerning issues may be expressed publicly and privately, as can support for causes, as long as such support is orderly and free from disruption of College operations and activities. Public expressions or demonstrations by students shall be accompanied by the disclaimer that students and student organizations do not represent the College. Only the Student Government Association is recognized as the official voice of the NFC student body.
- 5) Students and student organizations shall be allowed to invite persons of their own choosing for speaking and entertainment events. It shall be made clear to the campus community that appearances by speakers and entertainers are not necessarily indicators of approval or endorsement of views expressed by the speakers or entertainers. All sponsoring organizations must follow appropriate procedures associated with facilities procurement and provision of security.

## **PURPOSE:**

The purpose of this procedure is to outline an Identity Theft Prevention Program in compliance with the Federal Trade Commission’s Red Flags Rule, which implements Section 114 of the Fair and Accurate Credit Transactions Act of 2003. This program is designed to detect, prevent, and mitigate identity theft in connection with the opening of a covered account or an existing covered account and to provide for continued administration of this program. The program shall include reasonable policies and procedures to:

1. Identify relevant red flags for covered accounts the College offers or maintains and incorporate those red flags into the program;
2. Detect red flags that have been incorporated in the Program;

## **DEFINITIONS:**

Identity theft means fraud committed or attempted using the identifying information of another person without authority.

1. Refund of a credit balance on a student's account – the refund check can only be mailed to an address on file. ## **POLICY:**

All prospective new employees of North Florida College, including Adjuncts, OPS and Part-time employees, will be required to undergo and pass statutory Level 2 criminal background checks, including fingerprinting, before they are hired.

Information obtained from criminal background checks will be reviewed by the Executive Director of Employee Services, who will work in consultation with the appropriate Dean or Vice President in making recommendations to the President regarding employment decisions.

The President, based upon information and research from Employee Services, will make a determination of the status of any current employee whose background check discloses a conviction of a crime involving moral turpitude. Current employees whose employment status is adversely affected by a criminal background check will have the right to appeal.**

The College will pay for the cost of all Level 2 screenings. On an annual basis, the HR Office will verify the Criminal Record status through Clerk of the Court's Comprehensive Case Information System (CCIS) on all full and part-time employees.

North Florida College will consider the criminal record of each employee/prospective employee in its entirety. However, no prospective employee shall be refused employment, and no employee shall be terminated, based solely on his/her arrest record. There must be a guilty finding, regardless of adjudication, or a plea of nolo contendere or guilty to one or more of the "disqualifying" criminal offenses enumerated in the statutory Level 2 screening standards, found in Section 435.04(2), Florida Statutes.

Title: **Employee/Student Policy on Pandemics** Number: 4.54

Authority: 42 U. S. Code §247d  
Section 381.00315, Florida Statutes  
Section 1001.64, Florida Statutes  
United States Centers for Disease Control and Prevention  
United States Department of Health and Human Services

Date Adopted: May 19, 2015

Date Revised: April 20, 2021

OPR: Employee Services

---

## **POLICY:**

A pandemic occurs when three conditions are met: (1) A new virus subtype emerges; (2) the virus infects humans across the globe; (2) and the virus gains efficient and sustainable transmission from human to human. Pandemics are a part of human history and often strike without any notice. It is expected that all pandemics can have worldwide impact with an unpredictable timeline, spreading quickly from one area to another. If a severe pandemic occurs, major disruptions are likely for health care, transportation, infrastructure, education, suppliers and other public services. Physical facilities will not be damaged but will need vigilant attention to maintain operation. High absenteeism will affect the delivery of services and goods, nationally and internationally.

North Florida College's (College) primary goals with respect to pandemic planning are as follows:

1. To reduce illness and death;
2. To minimize social disruption and economic losses; and
3. To ensure the College's ability to continue core and critical functions in the event of a pandemic.

In the event of a declaration of a public health emergency in Florida by the State Health Officer or the Secretary of the Department of Health and Human Services due to a pandemic, North Florida College will recommend/employ the following:

### **Non-pharmaceutical Interventions (NPIs)**

Social distancing, isolation, quarantine, and public health education and practices employed to reduce individual risk of contracting the disease (i.e., hand washing, cough etiquette) comprise the list of NPIs that could be employed in a pandemic situation. While the effectiveness of any of these strategies for preventing the spread of illness is unknown, employment of a combination of NPIs, as deemed appropriate for the college setting, may slow the spread of disease.

**Social distancing** refers to taking action to discourage close social contact between individuals. This includes maintaining a distance of four to six feet between yourself and others, avoiding casual contact such as handshakes, and cancellation of classes and events. This intervention will be most effective when instituted early in the pandemic and before infection takes hold in the educational community.

Early pandemic events swept across the country in 3-4 weeks, at a time when fewer people traveled and modes of transportation were more limited and slower. In today's highly mobile society, the window for taking action may be limited to a few days.

**Isolation** refers to separating individuals with illness from the general population and restricting their movement within the general population until they are no longer contagious. Plans for isolating ill students will be the job of local, state, and federal agencies.

**Quarantine** is the separation and restriction of movement of those who are not ill but believed to have been exposed. The duration of quarantine will be dependent upon the length of the incubation period and period of contagion prior to onset of symptoms. Both the incubation period and period of viral shedding are difficult to know prior to the actual emergence of the pandemic virus.

Quarantine requirements may change based on new information or a different strain of a virus. Planning for quarantine must take into account some of the same factors as isolation. Enforcement of a quarantine is an issue that will be the responsibility of local, state, and federal agencies.

**Public health education** should communicate accurate, clear information regarding the reduction of personal risk. The messages should be consistent with those being issued by other public health authorities and crafted in advance to meet the needs/concerns of various campus audiences, including students, staff, faculty, parents, and members of the surrounding community.

### **Adherence to Federal, State, and Local Laws and Regulations**

In the event any virus or disease that is part of a pandemic infects any member of the College, the College will follow all Federal, State, and local laws and regulations for controlling and responding to the virus and/or disease.

*Through our Continuity Of Operations Plan for pandemics, the College will strive to reduce the impact of a pandemic and enhance the College's preparedness for all future disasters.*

**To protect the safety of the College community, all faculty and staff are required to immediately report, to the Executive Director of Employee Services, any of the following:**

1. Travel to, or planned travel to, known pandemic virus infected areas as identified by local, state and federal health agencies.
2. Contact with persons who have traveled to pandemic virus infected areas as identified by local, state and federal health agencies, where the faculty or staff knew, or reasonably should have known, of such travel.

Faculty and staff members violating this policy will be subject to disciplinary investigation, and possible action, up to and including termination of employment

Employees with questions or concerns about this policy or resources for specific diseases or serious illnesses may contact the Employee Services Department for information and referral to appropriate services and resources.

## **POLICY:**

### **Annual Leave**

Regular full-time and part-time employees will earn annual leave. Employees with contracts for a specific number of days or specific months less than one year (e.g. 164 days, 190 days, 210 days, 230 days, 9, 10, or 11 months) as well as Adjuncts and OPS employees shall not accrue annual leave.

Annual leave is earned when an employee completes more than half the month (16 days). If an employee terminates before or hired after the 16<sup>th</sup> day of the month, annual leave will not be accrued for that month.

Regular employees in twelve-month positions will earn annual leave as outlined below. Twelve-month employees who work less than full-time will earn annual leave in proportion to the time they work; that is half-time employees will earn one-half of the annual leave that full-time employees earn, three-fourth time employees will earn three-fourths of the annual leave that full-time employees earn, etc.

Grant Funded/Special Funding Positions – New employees and current employees filling grant-funded/special funding positions on or after July 1, 2015, will earn annual leave pursuant to this policy, but will not be paid for any such annual leave which is unused at the end of the grant period or when such employment ends, whichever occurs first. Grant funds may not be expended to pay for such accrued annual leave after the end of the grant period, or when the affected individual is no longer in a grant funded/special funding position. Exceptions to this policy may be made for grant-funded/special funding positions who are selected to fill Fund I (regularly established) positions with no break in service, or as approved by the President of the College or his/her designee.

**Annual leave will be computed as follows:**

One (1) full day of annual leave will be granted for each calendar month of service or major fraction of a calendar month of service for the first five (5) years of service.

The first month following the completion of five (5) years of service and each succeeding month of service thereafter will be computed at the rate of one and one-quarter ( $1 \frac{1}{4}$ ) days per month.

The first month following the completion of ten (10) years of service and each succeeding month of service thereafter will be computed at the rate of one and one-half ( $1 \frac{1}{2}$ ) days per month.

Years of service for accruing annual leave shall be cumulative and need not be continuous. Persons previously employed at the College under a nine, ten or eleven month contract shall be given credit for years of service under such contracts when their employment status switches to a twelve-month basis.

Prior full-time service at another Florida public Community or State College will be used in determining the monthly rate of annual leave.

No employees shall accumulate more than forty-four (44) days of annual leave by January 1st of any year. Annual leave credits earned in excess of forty-four (44) days in a calendar year shall be used by December 31st. Any excess annual leave not used by that date will be transferred to sick leave. All annual leave transferred to sick leave shall be without compensation and cannot be used in the calculation of terminal sick leave payout.

If an employee terminates, the College is authorized to pay unused annual leave based upon his/her current approved rate of pay, except that no terminal annual leave pay may exceed thirty (30) days. In case of death, payment will be made to the beneficiary, estate, or as provided by law.

Pay while on annual leave will be granted to the employee based upon his/her current approved daily rate of pay.

## **POLICY:**

Full-time and regular part-time employees earn one (1) day per month sick leave (Regular Part-time employees earn sick leave on a pro-rated basis). Any full-time regular employee who is unable to perform their duties at the College on account of personal sickness, accident disability, or extended personal illness, or because of illness or death of the employee's father, mother, brother, sister, husband, wife, child, or other close relative or member of the employee's own household, and who consequently has to be absent from work shall be granted leave of absence for sickness by the President or by the President's designated representative. Paid sick leave can be used in minimum increments of one-quarter hour. The following provisions shall govern such sick leave:

- a. At the beginning of employment, each employee will be credited with the number of sick days they will earn during the next twelve months. The member shall be entitled to earn no more than one day of sick leave times the number of months of employment during the year of employment. Such leave shall be taken only when necessary because of sickness as herein prescribed. Upon termination of employment, the employee's final compensation shall be adjusted in an amount necessary to ensure that sick leave with compensation shall not exceed the amount of earned sick leave.
- b. There is no limit on the number of days of sick leave an employee may accrue except that at least one-half of this cumulative leave must be established at North Florida College. Employees that were employed in another Florida University/Community College, or state agency immediately before being employed by NFC may transfer in previously accumulated sick leave at the rate of one (1) hour for each hour earned at NFC. A letter with the earned amounts must be submitted from the previous employer before credit can be given.
- c. A regular employee may use two (2) days of their accrued sick leave for personal reasons and two (2) days of their accrued sick leave for emergencies each fiscal year. Leave for personal reasons and emergencies shall be non-cumulative. Sick leave must be used after a regular employee is absent for more than four days for personal reasons in any twelve-

month period. Sick Leave may not be used to extend a Resignation, Termination, or Retirement Date and is only to be used when an employee must be absent from work on account of personal sickness, accident disability, or extended personal illness, or because of illness or death of the employee's father, mother, brother, sister, husband, wife, child, or other close relative or member of the employee's own household, except when approved by the President due to extenuating circumstances (ex. inpatient in a hospital, Hospice care, etc.).

- d. Any regular employee who finds it necessary to be absent from their duties because of personal sickness, accident disability, or extended personal illness, or because of illness or death of the employee's father, mother, brother, sister, husband, wife, child, or other close relative or member of the employee's own household, shall notify his or her immediate supervisor, if possible, before the opening of the College on the day on which he/she must be absent or during the day except for emergency reasons recognized by the Board as valid. Any employee shall, before claiming and receiving compensation for the time absent from his or her duties while absent because of sick leave as prescribed in this section, make and file a written leave request which shall set forth the day or days absent, that such absence was necessary, and that he/she is entitled or not entitled to receive pay for such absences in accordance with the provisions of this section; provided, however, that the President may require a certificate of illness from a licensed physician or from the County Health Officer.
- e. Any regular employee having unused sick leave credit shall receive full-time compensation for the time justifiably absent on sick leave; provided that no compensation may be allowed beyond that provided in this section.
- f. A calendar month of service or a major fraction (*16 or more days*) of a calendar month of service must be rendered as a regular full-time or regular part-time employee to earn sick leave.
- g. Grant Funded/Special Funding Positions – New employees and current employees filling grant-funded/special funding positions on or after February 1, 2019, will earn sick leave pursuant to this policy, but will not be paid for any such sick leave which is unused at the end of the grant period or when such employment ends, whichever occurs first. Grant funds may not be expended to pay for such accrued sick leave after the end of the grant period, or when the affected individual is no longer in a grant funded/special funding position. Exceptions to this policy may be made for grant-funded/special funding positions who are selected to fill Fund I (regularly established) positions with no break in service, or as approved by the President of the College or his/her designee.
- h. Terminal pay for Sick Leave: Accumulated days of sick leave shall be limitless. Terminal Pay shall be as follows:
  - (i) During the first three (3) years of service, the daily rate of pay multiplied by 35 Percent times the number of days accumulated sick leave.

- (ii) During the next three (3) years of service, the daily rate of pay multiplied by 40 percent times the number of days of accumulated sick leave.
- (iii) During the next three (3) years of service, the daily rate of pay multiplied by 45 percent times the number of days of accumulated sick leave.
- (iv) During and after the tenth (10th) year of service, the daily rate of pay multiplied by 50 percent times the number of days of accumulated sick leave.
- (v) During the next 20 years of service, the daily rate of pay multiplied by 50 percent plus up to an additional 2.5 percent per year for each year of service beyond 10 years, times the number of days of accumulated sick leave.

i. Years of service for terminal pay for sick leave earned is cumulative and need not be continuous.

Effective July 1, 2001 for all Senior Administrators (does not include regular Administrators, Professional Staff, Faculty or Career Staff):

For unused sick leave accumulated before July 1, 2001, terminal leave pay will be paid as listed above.

For unused sick leave accumulated on or after July 1, 2001, terminal payment may not exceed an amount equal to one-fourth of the employee's unused sick leave or 60 days of the employee's pay, whichever amount is less.

If the employee has an accumulated sick leave balance of 60 days or more on June 30, 2001, sick leave earned after that date may not be accumulated for terminal-pay purposes until the accumulated leave balance as of June 30, 2001, is less than 60 days.

## **POLICY:**

The Board possesses the authority to consolidate, reduce and eliminate programs within the institution, and to reduce faculty and staff on a continuing or annual contract, in accordance with provisions of the Florida K-20 Education Code and Rules of the State Board of Education. The following policy is promulgated to provide guidance whenever it appears that a consolidation or reduction of programs, or a reduction in staff, appears necessary. In promulgating this policy, it is the intention of the Board to retain the authority granted to it to the fullest extent permitted by law.

To the extent not already possessed pursuant to the Florida Statutes, the rules of the State Board of Education and/or Board Policies, the President is hereby delegated the authority to take all necessary actions to implement this policy and to make recommendations to the Board relative to the reduction of faculty and staff, the selection of continuing and annual contract personnel who are to be retained, on a continuing or annual contract, or terminated, and the selection of faculty and staff who will be selected for termination as a result of a consolidation or reduction of the college's programs.

### **Reduction of Faculty and Staff**

The President shall possess the authority to initiate the reduction of faculty and staff of the College. When approved by the Board, the President shall implement faculty and staff reduction as may be necessary to reduce expenses, or for any other lawful reason.

### **Consolidation, Reduction or Elimination of Programs**

Whenever the Board is required to or does consolidate, reduce or eliminate a program, the Board may determine on the basis of the following criteria which College employees on a continuing or annual contract shall be employed for service at the College, in what capacity and whether retention will be pursuant to an annual or continuing contract: successful performance of duties,

and demonstration of professional competence, educational qualifications, efficiency, compatibility, character, capacity to meet the educational needs of the community, the length of time the duties and responsibilities of the positions in question are expected to be needed and any other lawful criteria. Any employee no longer needed may be dismissed. The decision of the Board shall not be controlled by any previous contractual relationship. Those possessing a continuing contract shall not be given preference over those who possess an annual contract; rather, the overall needs of the College will be given preference. In the evaluation of the above factors, the decision of the board shall be final.

Personnel who are to be terminated will be identified and notified as soon as possible. Faculty possessing a continuing contract who are to be terminated because of a consolidation, reduction or elimination of a program or academic area shall receive notice as soon as practicable after the decision is made to consolidate, reduce or eliminate the program or academic area.

## **POLICY:**

Sexual harassment constitutes discrimination on the basis of sex and is a violation of this Policy. North Florida College will not tolerate such conduct. Any employee or student who is found to have violated this Policy will be disciplined, up to and including Discharge/Expulsion.

## **Definitions**

### A. Sexual harassment is defined as:

Conduct including but not limited to, an employee's or a student's unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature, sexually related jokes, and/or display of pornographic material in the workplace or an academic or student setting, including any North Florida College sponsored event, when:

- (1) Submission to or rejection of such conduct is made explicitly or implicitly a term or condition of an individual's employment or an individual's treatment;
- (2) Such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating a sexually intimidating, hostile or offensive working or academic environment.

## **Employee Relationships**

This Policy applies to all employees of North Florida College. No employee shall engage in sexual harassment.

- A. In the supervisor-employee context, the term sexual harassment has a broader impact. The fundamental element of such behavior is the inappropriate personal attention,

including romantic and/or sexual relationships with an employee by a supervisor or other employee who is in a position to affect an employee's career advancement or working conditions. The supervisor-employee relationship is professional in nature; inappropriate behavior is unprofessional and undermines the workplace. This unprofessional behavior is subject to discipline.

- B. This Policy applies to consensual as well as non-consensual supervisor-employee or employee-employee sexual and/or romantic relationships where the supervisor or employee is in a position to affect another employee's career advancement or working conditions.
- C. Supervisor-employee or employee-employee relationships should at all times be professional. Any supervisor-employee, or employee-employee conduct which unnecessarily or unreasonably creates a sexually intimidating, hostile or offensive working environment, or is otherwise in violation of the rights of others, is inappropriate and unacceptable, and will subject the offender to discipline.

### **Student Relationships**

This Policy applies to all students. No student shall engage in sexual harassment.

- A. Students should at all times be respectful of the rights of others. Any conduct by a student that creates a sexually intimidating, hostile or offensive environment for another student violates this Policy and will subject the offender to discipline.
- B. Students having a consensual sexual and/or romantic relationship with an instructor/employee who is in a position to determine a student's grade or otherwise affect a student's academic progress or environment will be subject to discipline.

### **Instructor/Employee-Student Relationships**

This Policy applies to instructor/employee-student relationships.

- A. In the instructor/employee-student context, the term sexual harassment also has a broader impact. The fundamental element of such behavior is the inappropriate personal attention, including romantic and/or sexual relationships with a student by an instructor/employee who is in a position to determine a student's grade or otherwise affect the student's academic progress or environment. Since the instructor/employee-student relationship is one of professional and client, inappropriate behavior is unacceptable and unprofessional, and seriously undermines the atmosphere of trust essential to the academic setting.
- B. This Policy applies to consensual as well as non-consensual instructor/employee-student romantic and/or sexual relationships, where the instructor/employee is in a position to determine a student's grade or otherwise affect a student's academic progress or environment. This Policy will be strictly enforced with the severest penalty imposed.

- C. This Policy is not intended to apply when an instructor is legitimately exercising academic freedom in teaching in the classroom when the subject matter taught or discussed is appropriate to the course being taught. Nevertheless, the instructor-student relationship should at all times be professional, and any conduct by an instructor which unnecessarily or unreasonably creates a sexually intimidating, hostile or offensive academic environment in violation of the rights of others is inappropriate and unacceptable, and any offender will be subject to discipline.
- D. An instructor/employee having a consensual romantic and/or sexual relationship with a student where the instructor/employee is in a position to determine a student's grade or otherwise affect a student's academic progress or environment will be subject to discipline.

**RETALIATION**

It is a violation of this Policy to retaliate against any person who has filed a complaint or who has complained about sexual harassment to his/her supervisor, to any other supervisor or manager of North Florida College, or to any other person, entity, or any human/civil rights agency. It is also a violation of this Policy to retaliate against any person (including witnesses) involved in the investigation of a complaint of sexual harassment.

**HOW TO REPORT**

If sexual harassment and/or retaliatory actions occur, they should be reported immediately to the Ombudsman; a member of Management or to the HR Department, and/or in the case of instructors, to the Department Chair. Forms for reporting such actions will be available from all of the offices listed below, as well as academic Department Chairs. Any such reports will be investigated immediately, using prescribed procedures. Sexual harassment and/or retaliatory actions will be dealt with through appropriate disciplinary action, and steps will be taken to prevent the recurrence of such conduct.

Each individual has the right to work in an atmosphere that promotes equal opportunities and prohibits discriminatory practices, including all forms of unlawful harassment. In keeping with this commitment, North Florida College maintains a strict policy prohibiting harassment of employees based on race, color, sex, religion, national origin, age, disability or other protected status by other employees, vendors, contractors, or guests. ### **False and Malicious Accusations**

### **Policy Statement**

Sexual misconduct involves acts which NFC will not tolerate as they are forms of discrimination that violate the norms of society and the expectations of NFC. NFC is committed to providing the NFC community with a positive environment free of sexual misconduct. NFC will not permit discrimination in any of its programs and activities or employment on the basis of sex, sexual orientation, or gender.

This policy and NFC’s Title IX Procedures address NFC’s responsibility to provide students and employees with a non-discriminatory environment in compliance with Title IX, the Violence Against Women Reauthorization Act, Title VII of the Civil Rights Act of 1964, and the Florida Educational Equity Act.

## **POLICY:**

The College expressly prohibits hazing. Hazing, as defined in State of Florida statute, means any action or situation that recklessly or intentionally endangers the mental or physical health or safety of a student for the purpose of initiation or admission into or affiliation with any organization operating under the sanction of a postsecondary institution. Such term includes, but is not limited to, any brutality of a physical nature, such as whipping, beating, branding, forced calisthenics, exposure to the elements, forced consumption of any food, liquor, drug, or other substance, or other forced physical activity which could adversely affect the physical health or safety of the student, and also includes any activity which would subject the student to extreme mental stress, such as sleep deprivation, forced exclusion from social contact, forced conduct which could result in extreme embarrassment, or other forced activity which could adversely affect the mental health or dignity of the student.

Students engaging in hazing are subject to disciplinary action and penalties delineated in the Student Code of Conduct published in the Student Handbook. Discipline and penalties may include the imposition of fines; the withholding of diplomas or transcripts pending compliance with the rules or pending payment of fines; and the imposition of probation, suspension, or dismissal. Organizations engaging in hazing will have the organization's charter revoked and the organization will cease to operate on or off campus under the sanction of the College.

All penalties imposed by the College shall be in addition to any penalty imposed for violation of any of the criminal laws of this state or for violation of any other rule of the institution to which the violator may be subject. The policy shall apply to acts conducted on or off campus whenever such acts are deemed to constitute hazing.

The College shall provide a copy of such policy, rules, and penalties to each student enrolled and shall require the inclusion of such policy, rules, and penalties in the bylaws of every organization operating under the sanction of the institution.

**Title:** Notification of Social Security Number Collection and Use      **Number:** 5.29

---

## **POLICY:**

In compliance with Florida Statute 119.071(5), North Florida College issues this notification regarding the purpose for the collection and usage of Social Security Numbers.

NFC collects your Social Security Number in order to perform the College's duties and responsibilities. To protect your identity, NFC will maintain the privacy of your Social Security Number and shall not release your Social Security Number to unauthorized parties. Each student at NFC will be issued a unique student identification number which is used for educational purposes, including access of your college records.

Federal Legislation relating to the Hope Tax Credit requires that all postsecondary institutions report the Social Security Number of all postsecondary students to the Internal Revenue Service. This IRS requirement makes it necessary for community colleges to collect the Social Security Number of every student. A student may refuse to disclose his/her Social Security Number to NFC, but refusing to comply with the federal requirement may result in fines established by the Internal Revenue Service.

In addition to the federal reporting requirements, the public school system in Florida uses the Social Security Number as a student identifier. This use is authorized in Florida Statute 1008.386. It is beneficial for postsecondary institutions to have access to the same information for purposes of tracking and assisting students in the transition from one educational level to the next.

All Social Security Numbers are protected by Federal regulations and are not to be released to unauthorized parties.
